

## Education

MSci Mathematics, *University College London (UCL)*

Sep 2022 – Jun 2026

- **Predicted classification:** First Class Honours — following achievement in years 1, 2, and 3
- **Notable classes:** Functional Analysis, Measure Theory, Probability, Multivariable Analysis, Representation Theory

International Baccalaureate Diploma, *Dwight School London*, 43/45 points

Sep 2020 – Jun 2022

## Notable Projects

UCL Final Year Project — Supervised by Dr Selim Ghazouani

Aug 2025 –

- To be around Ergodic Theory. Preparatory work has included interpreting convergence to zero of averages of the form  $\frac{1}{N} \sum_{n \in \{0, \dots, N-1\}} \cos 2\pi n^k \alpha$ ,  $\alpha \in \mathbf{R} \setminus \mathbf{Q}$ ,  $k \in \mathbf{N}$ , in terms of the uniquely ergodic irrational rotation of the circle and skew products thereof, as well as formulating some dynamical questions to do with the random walk in  $1/2/3D$ , and understanding the construction of Wiener measure on  $\mathcal{C}[0, 1]$ .

Project with Professor Prachi Mahajan at IIT Bombay

Jul 2025 – Aug 2025

- Reviewed the basics of the Fourier transform on  $L^1\mathbf{R}$ ,  $L^2\mathbf{R}$ . Looked how to establish the fact that  $\mathbf{C}$ -valued algebra morphisms on the Banach algebra  $L^1\mathbf{R}$  can be represented in terms of the Fourier transform. Studied the Paley-Weiner theorems for representing types of holomorphic functions in terms of the Fourier transform.

Galois' Theory and the algebraic closedness of  $\mathbf{C}$

Nov 2024 – Dec 2024

- Presented to professors and peers, as part of the UCL Galois Theory class, a proof of the Fundamental Theorem of Algebra using ideas from Galois' Theory.

University College London Year 2 Research Project — Analysis

May 2024 – Jun 2024

- Studied linear maps on normed spaces, researched “quasinormed spaces”. Awarded, through a top-ranked presentation, participation in the UCL Mathematics poster exhibition. Poster now displayed in the UCL Department of Mathematics.

University College London Year 1 Group Research Project

May 2023 – Jun 2023

- Explored tiling puzzles through Graph Theory, presented results to peers and professors.

## Other Experience

- **Hong Kong ASTRI**, Intern — Projects in Healthcare AI and python. *Jun 2024 – Aug 2024, Hong Kong*
- **Xperitus Insurance Brokers**, Intern *Aug 2023 – Oct 2023, Mumbai/London*
- **UCL Transition Mentor**, Mentored incoming 1<sup>st</sup> year mathematics students. *Sep 2023 – Dec 2023*
- **Private Tutor** *Sep 2020 –*
- **Kundakala CIC**, Trustee *Jul 2021 –*

## Activities

- **Languages:** Python, Lean, L<sup>A</sup>T<sub>E</sub>X; English; Marathi, Hindi (conversational); Chinese (简体, 普通话) (intermediate)
- **Former National Swimmer:** 2-time British National Finalist, England East Region Champion, 2-time England East Region Bronze Medallist, Hertfordshire County Champion
